

Advocacy & Issues

ASQ's commitment to public service assures legislators, public policy makers, and members of the media timely access to reliable information on quality-related matters affecting the public and private sectors.

Call on ASQ for:

- Access to the Quality Body of Knowledge
- Referrals to quality experts
- Impartial information on quality-related matters

ASQ has been instrumental in the expansion of the Malcolm Baldrige National Quality Award to include categories for education, healthcare, and nonprofit organizations. Our subject-matter experts have advised Congress, policy makers, and commissions on various topics of national interest, including:

- Food safety
- Healthcare system improvement
- Education reform and the presidential agenda
- IRS reform
- Transportation security
- Election reform
- Application of quality principles in education, healthcare, and government operations

Take a look at the components of this information packet for more about the full range of services that ASQ offers.
